## A Note about Recommended books

You are not required to buy Recommended Books, however, they are listed on the Textbook List because you will need to consult them for your assessment. Another reason to buy Recommended Books is because although the library has multiple copies of books, large classes mean that timely access for all students to the books you need might not always be possible. By buying your own copy you guarantee access to the book whenever you need it for your assessment and learning.

In some cases students may find it cheaper to buy the books direct from Book Depository/Amazon themselves as QTC has to add GST to the Book Depository/Amazon price.
